1. The first part of the paper is devoted to a general discussion of the problem.

2. In the second part, we shall consider the special case of a uniform distribution.

3. The third part is devoted to the study of the asymptotic behavior of the distribution.

4. Finally, in the fourth part, we shall give some numerical results.

5. The last part of the paper is devoted to a summary of the results.

6. The paper is divided into six sections, each of which is devoted to a different aspect of the problem.

7. The first section is devoted to a general discussion of the problem.

8. In the second section, we shall consider the special case of a uniform distribution.

9. The third section is devoted to the study of the asymptotic behavior of the distribution.

10. Finally, in the fourth section, we shall give some numerical results.

11. The last part of the paper is devoted to a summary of the results.

My dear sister  
I have just received  
your letter of the 14th  
and am very glad to hear  
from you.

I am well and hope  
this finds you the same.  
I have not much news  
to write at present.

I have just received  
your letter of the 14th  
and am very glad to hear  
from you.

Yours affectionately  
John

I have just received  
your letter of the 14th  
and am very glad to hear  
from you.

Alvin A. Hoar  
Agree with me

Agree with St.

11

[illegible]

No 2. After it has been used, it may be  
washed & reused. It is also good for  
the purpose of cleaning the skin.

1. *Chlorophyll a* (Chl a) and *Chlorophyll b* (Chl b) are the primary photosynthetic pigments in green plants. They are responsible for capturing light energy and converting it into chemical energy through the process of photosynthesis. Chl a is the most abundant pigment, while Chl b is present in smaller amounts. Both pigments are found in the chloroplasts of green plants.

Dec. 9 Miss Harriet L. Lyman with  
✓ her sister  
Howard L.

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as  $t \rightarrow \infty$ . It is shown that the solutions of the system (1) tend to zero as  $t \rightarrow \infty$  if and only if the matrix  $A$  is Hurwitz. This result is obtained by using the method of the variation of constants.
